PROFILE

Quality Assurance Officer with nearly 2 years of experience in sterile injectable pharmaceutical manufacturing. Experienced in QMS activities including Deviation, CAPA, Change Control, Risk Assessment, SOP management, and batch documentation review. Hands-on exposure to process validation, equipment qualification (PQ/Re-qualification), IPQA, line clearance, and audit support. Well-versed with cGMP, Revised Schedule M, and sterile manufacturing practices, with a strong foundation in Pharmaceutical Chemistry and a proactive approach toward quality compliance and continuous improvement.

WORK EXPERIENCE

Quality Assurance Officer – QMS & Sterile Manufacturing

Genetek Lifesciences Pvt. Ltd,
Wardha, Maharashtra
October 2024 – Present

- ❖ Managed Quality Management System (QMS) activities, including 10+ Deviations, 10+ CAPAs, 20+ Change Controls, and Risk Assessments, ensuring timely investigation and effective closure.
- ❖ Prepared, reviewed, and updated 75+ Master Formula Records (MFRs) and Batch Manufacturing Records (BMRs), ensuring documentation accuracy, traceability, and cGMP compliance.
- ❖ Prepared and reviewed 10+ Process Validation (PV), Performance Qualification (PQ), and Re-Qualification protocols.
- ❖ Supported execution of process validation activities as per approved protocols.
- ❖ Performed IPQA activities and compliance monitoring for 50+ sterile manufacturing and packaging batches, ensuring adherence to cGMP, Revised Schedule M, and cleanroom practices.
- ❖ Prepared, reviewed, and approved 50+ Standard Operating Procedures (SOPs) and Certificates of Analysis (COAs), maintaining document control and regulatory compliance.
- ❖ Supported 7 internal, external, and regulatory audits by ensuring audit readiness, documentation compliance, and timely closure of audit observations.
- ❖ Coordinated with Production and QC departments for deviation closure and batch release activities.
- ❖ Ensured compliance with sterile manufacturing practices and cleanroom protocols during production and packaging activities

TECHNICAL SKILLS

- ❖ **Quality Assurance:** cGMP, QMS, SOP Management, IPQA, Line Clearance, Batch Documentation Review
- ❖ **Documentation:** MFR/BMR/BPR preparation and review, logbook verification, document control

- ❖ **Compliance:** Deviation, CAPA, Change Control, Risk Assessment, Audit Compliance, Regulatory Documentation
- ❖ **Validation:** Process Validation, Equipment Qualification,(PQ), Re-qualification.
- ❖ **Instruments:** HPLC, UV, IR (Basic Handling)
- ❖ **Regulations:** cGMP, Revised Schedule M, GDP, Data Integrity Awareness
- ❖ **Computer Skills:** MS Word, Excel, PowerPoint, documentation management.

EQUIPMENT AND SYSTEM EXPOSURE

- ❖ HVAC system monitoring for cleanroom compliance.
- ❖ NVPC system
- ❖ Injectable production and packaging equipment: PLC-based manufacturing tanks, GEA Homogenizer, 4/8 Head Vial filling machine, 4/8 Head Ampoule filling machine, FFS machine, MHS, DHS, Super-Heated Water Spray Sterilizer, Vial washing and Depyrogenation tunnel.

EDUCATION

- ❖ Bachelor of Pharmacy (CGPA-7.77) **Jul 2017- Apr 2022**
Rashtrasant Tukadoji Maharaj Nagpur University
- ❖ Master of Pharmacy (Pharmaceutical Chemistry) (CGPA-7.8) **Jan 2023- Aug 2024**
Rashtrasant Tukadoji Maharaj Nagpur University

PROJECT & COURSES

- ❖ **B. Pharm Project:** Preparation and Evaluation of Herbal Foot Crack Cream
- ❖ **M.Pharm Thesis:** Design, Synthesis, and Pharmacological Evaluation of 3-formyl Chromone Derivatives for Alzheimer's Disease
